EVERGREEN SEEDLINGS,

CULTIVATED AND FOR SALE AT THE

GREEN VALLEY NURSERIES,

MONTVILLE, GEauga Co., OHIO.

John V. Whitney & Son, Prop's.

For the spring of 1875.

TO OUR FRIENDS AND PATRONS.

We desire to tender our thanks to our numerous patrons, and say that we are again prepared to fill their orders with superior stock at very low rates. To those unacquainted with us we wish to say that the growing of Evergreens is a specialty with us, and that we are thereby enabled to fill orders so as to give better satisfaction than can be done by those unacquainted with the business.

The packing is all done under our immediate supervision, and we know it is not excelled by any like firm in the country.

Our stock consists largely of Norway Spruce, this having come into more general use than any other ornamental tree. It bears transplanting exceedingly well, and is very desirable for wind-breaks and hedges.

Our soil is clay loam, on which Evergreens thrive exceedingly well, and experience shows us that it produces very much better rooted plants than light soils.

The packing is done entirely with moss, and no package is ever sent out unless packed by us or under our immediate supervision.

All orders will receive prompt attention.

Plain and explicit directions should be given as to route and manner of shipment, as our responsibility ends when delivered at the Railroad Station.

Boxes from twenty-five cents to three dollars.

Claims for damage must be made immediately.

Terms, cash or satisfactory note or reference.

JOHN V. WHITNEY & SON.

John V. Whitney & Son, Boston
